

POWER PLATE®

MOVE™

GET READY TO BE MOVED

The MOVE™ by Power Plate® is the perfect combination of size and function. It's base has been designed from the ground up to save as much space as possible without compromising a shred of performance. It's light enough to be moved from room to room, yet sturdy enough to support a full 300lbs. Complete with six variable frequency modes, the MOVE™ can cover a wide range of functionality. Whether you want to achieve a relaxing massage or a gut-busting, sweat-inducing workout; the MOVE™ is efficient and effective no matter how you choose to use it.

The controls are simple and intuitive with large, easy-to-understand buttons and a digital timer, which has been fully reimagined to count up to a full nine minutes, so all you need to do is press play to get things started.

The MOVE™ can also be used in light commercial/shared group exercise settings for fitness facilities seeking to provide compelling group exercise experiences to their members but face space-constraint challenges.

-  Accelerates and maximizes results
-  PrecisionWave Technology™
-  Patented multidirectional vibration
-  Helps boost recovery time
-  A complete workout in only 15 minutes

Simple, 4-Button Controls
